Ares2t role in 5G-Solutions

- **SME Involvement:** We lead the SME Involvement 5G-SOLUTIONS Consortium program with strong knowledge and respect for the challenges and doubts SMEs must face in sharing their innovation idea. We are one of you and we face daily the same challenges.
- **Smart Energy Living Lab:** We lead the Smart Energy LL that will foster an innovation service package of innovations on use of 5G in Smart Energy services.
- **Business Planning and Market Exploitation:** We are focused on the go-to-market for Smart Energy Living Lab and we are committed on building an extended product portfolio including valuable external SMEs.

Reasons to apply

Be chosen by 5G-SOLUTIONS Consortium Partners so that your ideas can be validated considering a real 5G vertical enhanced environment; these SMEs could be **be first** in developing innovative features.

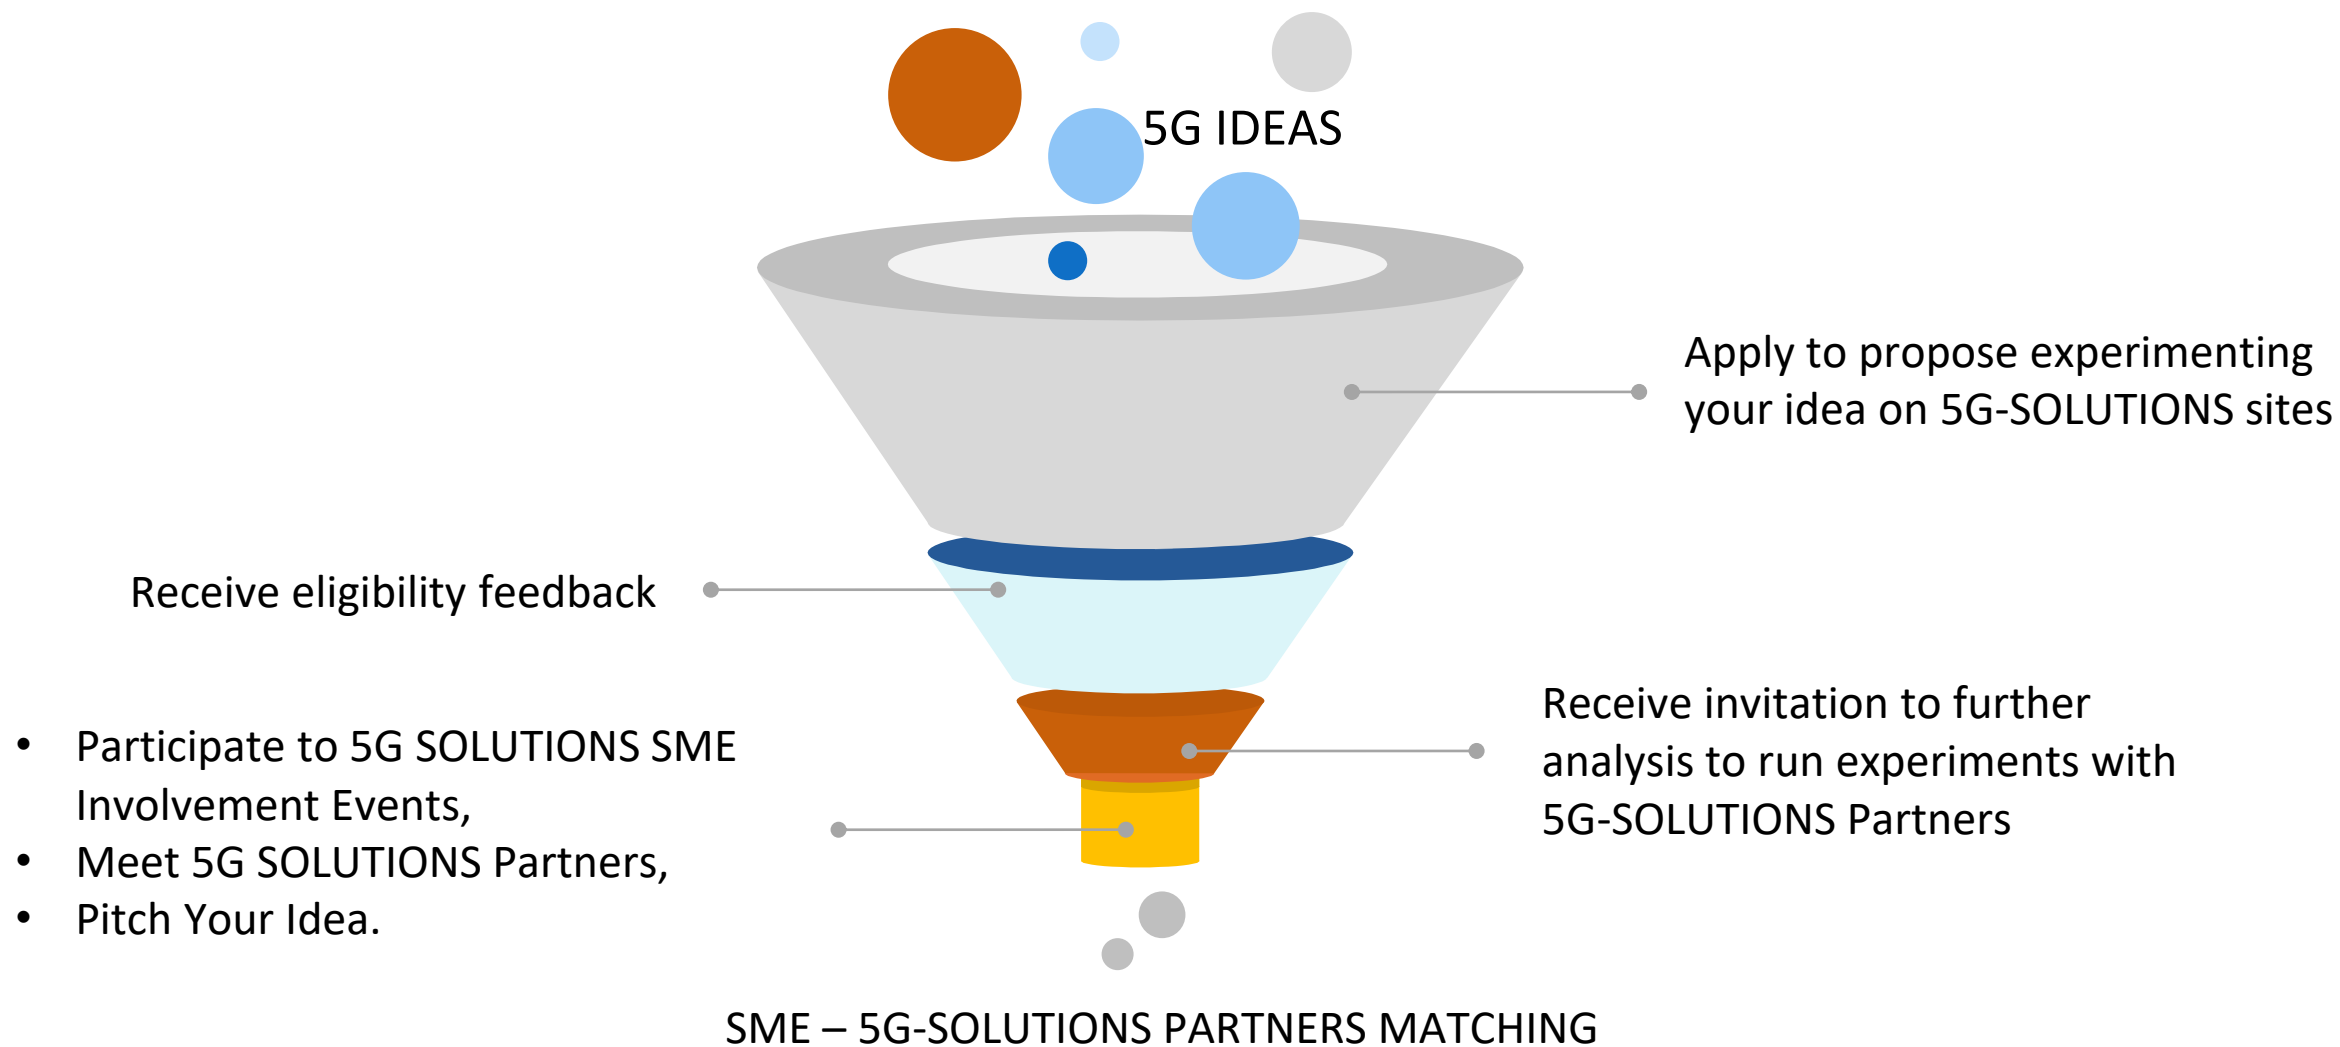

Be invited in Face-to-Face Events (up to 4 in 2020-2022) for knowing each-other and evaluate **potential collaboration** with 5G-SOLUTIONS industrial partners.

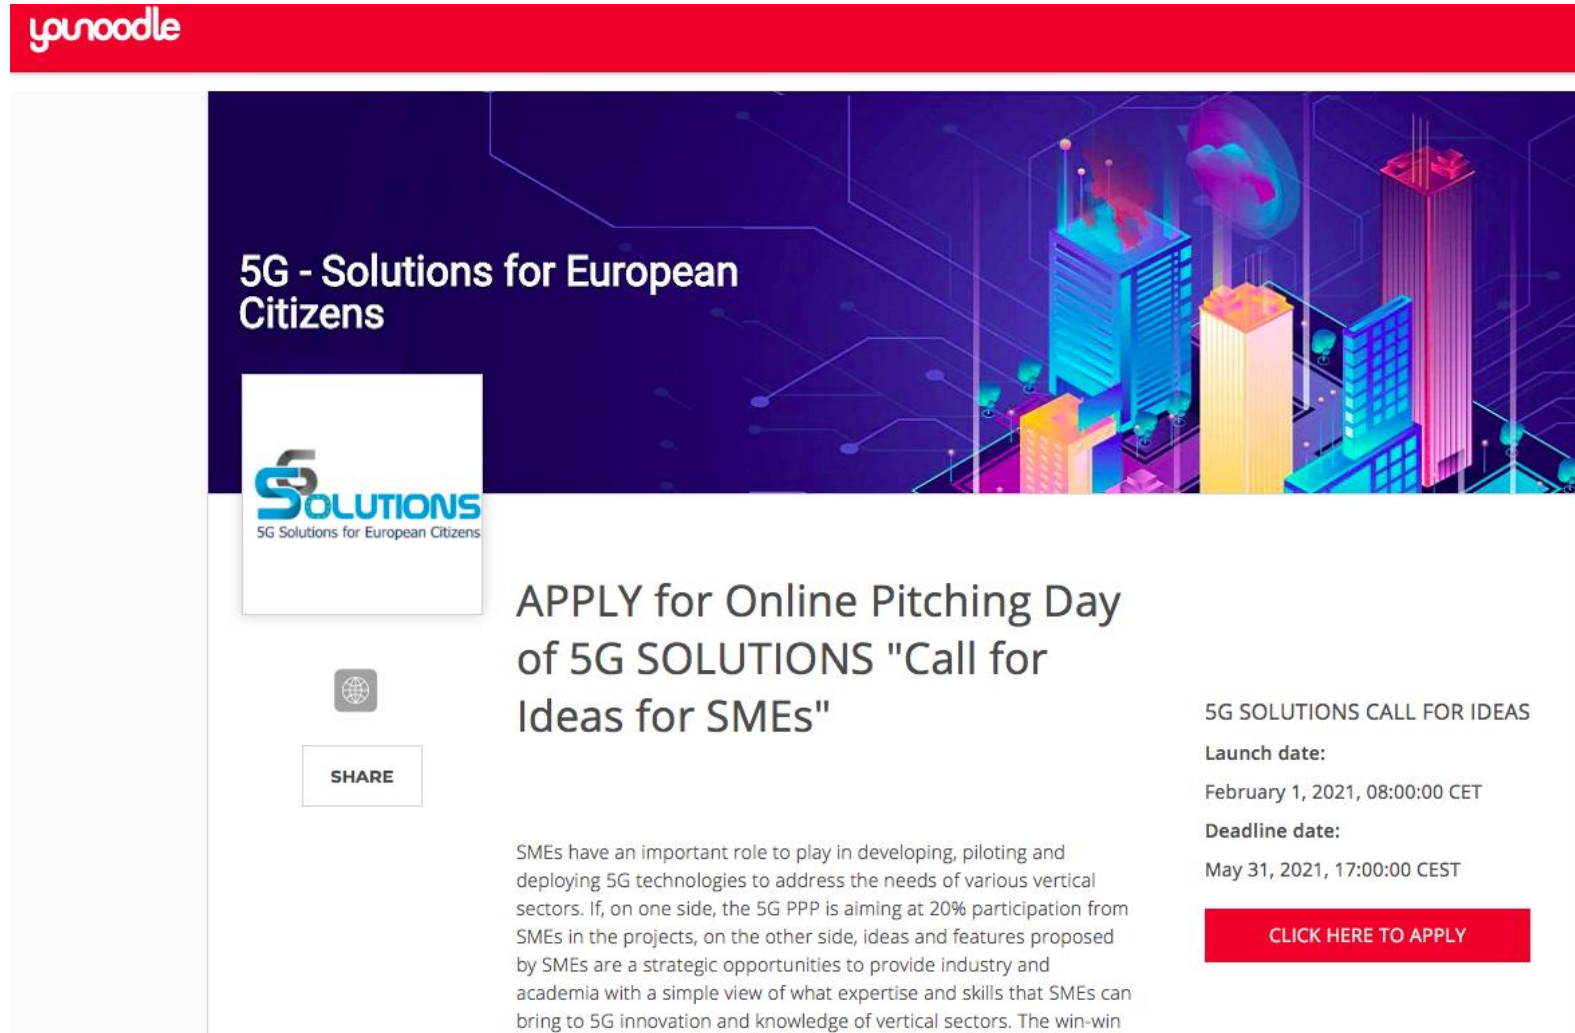

Pitch your idea in front extended **international audience** including European 5G initiatives representative and be in contact with 5G-PPP community.

5G-Solutions Call for Ideas Framework

Submit your 5G Idea

The screenshot shows a Younoodle competition page. At the top left is the Younoodle logo. The main header area features a dark blue background with a futuristic cityscape illustration and the text "5G - Solutions for European Citizens". Below this is a white box containing the "5 SOLUTIONS" logo and the text "5G Solutions for European Citizens". To the right of the logo is a "SHARE" button with a globe icon. The main title of the competition is "APPLY for Online Pitching Day of 5G SOLUTIONS 'Call for Ideas for SMEs'". Below the title is a paragraph of text: "SMEs have an important role to play in developing, piloting and deploying 5G technologies to address the needs of various vertical sectors. If, on one side, the 5G PPP is aiming at 20% participation from SMEs in the projects, on the other side, ideas and features proposed by SMEs are a strategic opportunities to provide industry and academia with a simple view of what expertise and skills that SMEs can bring to 5G innovation and knowledge of vertical sectors. The win-win". To the right of the text are the details: "5G SOLUTIONS CALL FOR IDEAS", "Launch date: February 1, 2021, 08:00:00 CET", and "Deadline date: May 31, 2021, 17:00:00 CEST". At the bottom right is a red button that says "CLICK HERE TO APPLY".
